Approved For Release 2005/02/17 : CIA-RDP62-00631R000200190013-7

Approved For Release 2005/02/17 : CIA-RDP62-00631R000200190013-7

Honorable Arnold Blattenberger, GPO, Washington 25, D. C.

Office shall be transferred to the Central Intelligence Agency without reimbursement therefor. A list of such equipment has been jointly prepared and is attached hereto as Annex B.

d. All other printing equipment now in the plant which has been procured by the Government Printing Office shall be transferred to the Central Intelligence Agency and the Central Intelligence Agency shall reimburse the Government Printing Office in the amount representing the cost to the Government Printing Office less depreciation to January 1, 1957. A list of such equipment showing the reimbursement price of each piece of equipment has been jointly prepared and is attached hereto as Annex C.

e. All supplies, replacement parts, etc. (except those furnished by the Central Intelligence Agency), which the plant may have on hand or on order as of the effective date of the transfer shall be acquired by the Central Intelligence Agency at a price representing cost to the Government Printing Office.

f. The Central Intelligence Agency shall provide classified printing at cost to the Atomic Energy Commission, the State Department, and any other agency which heretofore has used the subject plant for classified printing to the extent that such service may have been previously furnished by the Government Printing Office. The Atomic Energy Commission and the State Department have been apprised of this proposed transfer and have interposed no objection thereto. The subject printing plant shall not perform any unclassified printing for the Central Intelligence Agency or for any other Government Agency, except upon waiver issued by the Government Printing Office, while operating in its present location. When the plant is merged with the Central Intelligence Agency's facilities in a single location no unclassified printing shall be performed by this printing plant except that type of printing which would normally be produced in a Government duplicating plant.

Mr. Raymond Elstanberger, GPO, Washington 25, D. C.

g. The Central Intelligence Agency shall offer to those Government Printing Office employees presently employed in the plant the opportunity of transferring to and becoming employees of the Central Intelligence Agency.

h. The Government Printing Office shall retain on its rolls as its employees those personnel electing not to transfer to the Central Intelligence Agency, except that personnel on the rolls of the plant when administrative control was assumed by the Government Printing Office on February 1, 1947, or recruited subsequent to that date for specific assignment to the plant, shall not be accorded the option of remaining on the rolls of the Government Printing Office. Prior to the effective date of this transfer the Government Printing Office and the Central Intelligence Agency shall jointly prepare a list of personnel desiring to transfer to the Central Intelligence Agency.

i. The Central Intelligence Agency shall be responsible for obtaining personnel to replace those Government Printing Office employees who may elect not to transfer to and become employees of the Central Intelligence Agency. However, the Government Printing Office will, on requisition by the Central Intelligence Agency, detail for a period not to exceed six months and at their prevailing salary, such personnel as may be required until replacement personnel can be recruited, cleared, and entered on duty.

j. Upon the effective date of this transfer the Central Intelligence Agency shall have exclusive operating control of the printing plant.

k. The Central Intelligence Agency shall be responsible for obtaining agreement with the Atomic Energy Commission regarding clearance of Central Intelligence Agency personnel assigned to do the Atomic Energy Commission's classified printing referred to in paragraph f. above.

The Central Intelligence Agency is anxious to assure the transfer of this printing function with the least possible inconvenience to all concerned. To this end, I assure you that

we will cooperate with the customer agencies and the Government Printing Office to the fullest extent. This facility will therefore be available to the Government Printing Office for printing highly classified work for which your main plant may not be equipped. Further, this Agency intends to continue to rely on the Government Printing Office for its unclassified printing and for paper and supplies used in our printing facilities.

Sincerely,

Signed

Allen W. Dulles
Director

MEMORANDUM FOR: Acting Deputy Director (Support)

SUBJECT: Attached Letter to Public Printer re Transfer
of GPO - State Service Printing Plant to
the Agency

1. The attached file recommends that the Director sign a letter to the Public Printer requesting the transfer of the GPO Printing Plant located in the basement of the Administration Building from the GPO to CIA, effective 1 January 1957. According to Attachment 4 (para. 4c), this transfer would require an increase of [] the personnel ceiling in the Office of Logistics. In view of the Director's decision, the ceiling programmed for during the current Fiscal Year 1957, as developed during the review of the Operating Budget for that year, would not exceed the amount originally included in the Congressional Budget for Fiscal Year 1957. In addition, the DCI directed the budgeting for a reduction in personnel strength in Fiscal Year 1958 [] In view of these facts, it is believed that the policy question as to whether an increase in Agency ceiling will be authorized in order to absorb this transfer or whether the ceiling required to provide for the employees received on transfer would have to be provided by reduction elsewhere in the Agency be made before definitive action is taken on the attached proposal.

2. The only budgetary problems are those (a) involving ceiling concerned in the attached proposal, and (b) the financing of the purchase of equipment [] Since the Agency is already paying for the services of the Printing Plant through reimbursements to the GPO, the funds budgeted for such reimbursements can be used to pay the direct charges of operating the Plant. It is anticipated that the financing of the purchase of equipment can be worked out during the course of the year through savings in budgeted operations.

3. Since the attached proposal involves a transfer of functions between Government agencies, it will be necessary to obtain concurrence of the Bureau of the Budget prior to the accomplishment of the proposed transfer. Before taking the matter up with the Bureau of the Budget, however, it is necessary that a determination be made on the personnel ceilings in order to evaluate the impact of the change on the Agency's budget.

SECRET

It is therefore requested that the following two issues be resolved, policy-wise within the Agency, prior to returning the file to the Comptroller's Office for coordination with the Bureau of the Budget:

a. Does the Director wish to accept the recommendation on the transfer as proposed.

b. If the proposed transfer is approved on a policy basis, will an increase in the personnel ceilings be approved in order to provide the personnel strength to carry out the operation, or will it be necessary to reduce other activities in the Agency to offset the personnel increases required by such a transfer.

Acting Comptroller
